- \* Automatic e-mail notification

## Team Directory

- \* Build the appropriate team for each project
- \* Invite others to discuss and approve

## Resources

- \* Create customer specific resources
- \* Share resources company wide

## Customer and User Comments

" PackageX is an exciting new tool that makes communication easier for customers who deal with multiple plant locations."

Dick Emmerick - Jamestown Container

" PackageX helps keep a project on track and moving forward and it's an easy way to make sure everyone is working from the same data."

Tom Flickenger - Packaging Specialist

" PackageX helps the movement of large files needed for final product and keeps them in one organized space. This speeds time to market!"

Bob Dye - Smurfit-Stone Display
